<p><b>Guide to Selecting Classes/Courses</b></p>	<p>Exchange students will normally select classes/courses from levels 1 to 3. Level 1 classes are usually at an introductory level and may not require much previous knowledge or study in the subject. Level 2 and 3 classes will normally require some previous study in the subject. Level 4 classes are not usually available to exchange students unless they have significant background in the subject and meet the prerequisites for the class. It also depends on class capacity and size. <b>(Admission to level 4 classes will normally require the permission of the individual department which offers the class).</b></p> <p>Exchange students usually take classes/courses amounting to 60 Strathclyde credits (30 ECTS credits) per semester. <b>This is considered a regular full-time load.</b> In Humanities and Social Sciences and Strathclyde Business School, this typically amounts to 3 classes worth 20 credits each. In Science and Engineering, this may amount to around 4-6 classes per semester.</p> <p><b>IMPORTANT</b>  <b>You will receive provisional approval for the classes listed in your application prior to arrival, however you may require to make some changes or adjustments on arrival to take account of timetables or any other programme adjustments. It is therefore very important for applicants to be flexible and have some reserve classes in mind which can be substituted as necessary if you need to review any of them when you reach Glasgow.</b></p> <p>ERASMUS students should select most of their classes/courses (at least 50%) from the Strathclyde department which owns the ERASMUS agreement. It may be possible to take one or two classes from another department if you meet the prerequisites, if the other department approves it, and if they timetable effectively around your other classes.</p> <p>Non-ERASMUS/International Exchange students should identify their main subject area/host department at the application stage, and take at least 50% of your classes/courses from that department/subject area. It may be possible to take one or two classes from another department if you meet the prerequisites and if they timetable effectively around your main classes. It may not be possible to seek confirmation of any secondary classes until you arrive. International Exchange students should also have lots of flexibility around classes in case you need to review them upon arrival.</p> <p>For details of available classes/courses, please refer to the <a href="#">Guide to Selecting classes</a>.</p>

### Accommodation/Housing Information

Incoming ERASMUS students are **not** guaranteed campus housing. This is allocated by ballot to students who apply by the deadline. You can find all of the available on campus housing options online [here](#).

When making your allocations, for single semester applications, it would be helpful if partner Universities could divide their allocations equally over both semesters to reduce the pressure on housing requirements.

International Exchange/non ERASMUS students will **normally** be guaranteed campus housing provided they apply by the deadline unless there are any extenuating circumstances in which case alternative arrangements will be put in place and partner institutions will be notified.

The Housing Office will email **all** applicants in July/August (for those commencing study in S1 and December (for those commencing study in S2) with further information concerning their housing arrangements. Unsuccessful applicants will receive information about alternative housing options around the City.

Students renting privately should be aware they may require to pay council tax.

### Visa requirements

Please refer to information for Exchange and Study Abroad students.

Most non EEA students attending Strathclyde for one semester from a Partner University will be eligible to receive a **short-term study visa stamp** on arrival at the airport but please **check your eligibility using the link provided**.
