

## MATHEMATICS AND ENGINEERING EXCHANGE INFORMATION

### THINGS TO DO BEFORE YOU COMPLETE AND SUBMIT YOUR APPLICATION FOR NOMINATION

1. Get familiar with your third year and fourth year curriculum.  
(i.e., what courses do you need to take abroad and find substitutions for)
2. Review course offerings at the partner Universities abroad with whom you are seeking a nomination  
(*Hint: remember to look at not only the course content but when the course(s) are offered and is the course offered in English*)
3. After your investigations, be prepared to submit a study plan for any of your preferred host universities, as part of the application process. This plan should clearly indicate the courses that you wish to substitute as your preferred exchange university, for the specific required elements of your discipline specific program. The documentation should include the course title and a brief course description of each exchange course you wish to take. You may find this information via the webpages of our university partners.

Undergraduate Program Assistant, Johana Ng [jn@queensu.ca](mailto:jn@queensu.ca)

### **MATHEMATICS AND ENGINEERING exchange opportunities include but are not limited to:**

Nanyang Technological University  
National University of Singapore  
University of Melbourne  
City University of Hong Kong  
Lund University  
University of Edinburgh  
University of Exeter  
University of Leeds  
University of New South Wales  
University of Strathclyde  
Uppsala University  
Waseda University
